BUSINESS STUDIES

Based on Case Studies

1. Sunrise Foods Pvt. Ltd. was facing a decline in sales. The manager called a meeting and discussed ways to improve product quality, increase employee motivation and reduce production cost. Different departments worked together and a strategy was prepared to achieve targets.

Based on the above case, answer the following:

- a. Identify any two characteristics of management shown in the case.
 - b. Explain how management helps in achieving group goals.
 - c. (c) State two objectives of management.
2. At Bright Future School, the principal encouraged teachers to suggest innovative teaching methods. Teachers were given freedom to implement ideas but were also responsible for students' performance. Rewards were given to the best performers.

Answer the following:

- a. Identify the principle of management related to encouraging innovation.
 - b. Identify the principle which balances authority and responsibility.
 - c. Explain the importance of principles of management.
2. A manufacturing company observed that workers had to receive instructions from multiple supervisors, creating confusion and lowering efficiency. The management decided that each employee would report to only one superior.

Answer the following:

- a. Identify the principle applied by management.
- b. Name the principle violated earlier.
- c. Explain any three principles given by Fayol.

4. The government announced policies encouraging electric vehicle production and stricter environmental standards. Auto companies started redesigning products and investing in cleaner technologies to stay competitive.

Answer the following:

- a. Identify the dimension of business environment highlighted.
- b. State any two features of business environment.
- c. Explain how business environment helps in identifying opportunities.

ACCOUNTANCY

Q1. Average Profit Method

A firm earned profits for the last 5 years as follows:

2021 – ₹80,000

2022 – ₹95,000

2023 – ₹1,10,000

2024 – ₹1,25,000

2025 – ₹90,000

Calculate goodwill at 3 years' purchase of average profits.

Q2. Weighted Average Profit Method

Profits for last four years are:

2022 – ₹60,000

2023 – ₹80,000

2024 – ₹1,00,000

2025 – ₹1,20,000

Weights: 1, 2, 3, 4 respectively.

Calculate goodwill at 2 years' purchase of weighted average profits.

Q3. Super Profit Method

Average maintainable profit = ₹2,40,000

Capital employed = ₹20,00,000

Normal rate of return = 10%

Calculate goodwill at 3 years' purchase of super profit.

Q4. Capitalisation Method

Average profit = ₹4,00,000

Normal rate of return = 8%

Actual capital employed = ₹40,00,000

Calculate value of goodwill.

B. Profit and Loss Appropriation Account – Practical Questions

Q5. Basic Appropriation Account

A and B are partners sharing profits in ratio 3:2.

Net profit before appropriation = ₹2,40,000

Adjustments:

Interest on Capital: A ₹12,000, B ₹10,000

Salary to A ₹24,000

Commission to B ₹8,000

Prepare Profit and Loss Appropriation Account.

Q6. Appropriation with Interest on Drawings

X and Y share profits equally.

Net Profit = ₹3,00,000

Adjustments:

Interest on Capital: X ₹15,000, Y ₹15,000

Drawings: X ₹20,000, Y ₹30,000

Interest on Drawings @10% p.a.

Partner's salary to X ₹36,000

Prepare Profit and Loss Appropriation Account

ECONOMICS

All the unsolved numericals of chapter 4

Methods of measuring national income. (All 80 questions unsolved)

This homework is to be done in their homework copies only

APPLIED MATHEMATICS

Lab activity and project based on CBSE, for more details please visit cbse.nic.in
